

## Digital-Ready, Low Intermodulation Splitters, Directional Couplers, and Specialty Passives Overview

### Drop Passives:

#### Features & Benefits:

- ▶ Digital Ready
- ▶ 5 MHz to 1 GHz bandwidth
- ▶ SCTE compliant
- ▶ Low intermodulation circuitry to ensure low distortion during interactive operation
- ▶ Precision tuned for optimum specifications
- ▶ Surge Protection: CAT A3 6kV, 200A Ring wave version available
- ▶ Premium ferrites, resistors & capacitors
- ▶ PCB microstrip designed for consistent performance
- ▶ Multiple grounding of PCB ensures quality RF performance
- ▶ Stand-offs to increase air flow under the unit
- ▶ CE Approved
