Digital Phone Connect Solutions Overview

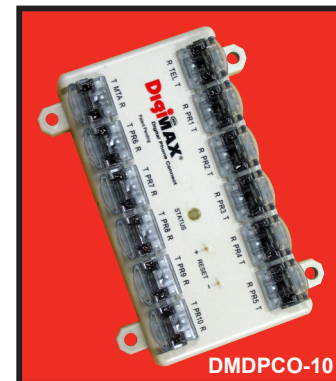

General Overview:

- ▶ The DigiMAX[®] Digital Phone Connect Solutions product line consists of unique switch-based devices for cost-effective, efficient, & seamless transition from incumbent Telco phone service to CATV digital phone service with only one technician visit
- ▶ The DMDPC (indoor) & the DMDPCO / DMDPCO-10 (outdoor) Porting Switch Solutions provide a one time switch-over from incumbent Telco to MTA-based service
- ▶ The DMDPCI & DMDPCIW Intercom Switch Solutions are ideal for MDUs provisioned with No Subscriber Line (NSL) intercom products. They provide a one time switch-over from incumbent Telco to MTA-based service, as well as conditions-based switch-back to Telco from MTA service in the event of Telco/Intercom ring or MTA disconnection or power loss
- ▶ The DMDPC ENCL Outdoor Enclosure comes with snap in tabs for both the DMDPCO & DMDPCO-10 and features two ports, secure hinged cover, & UV stabilized polymer while the DMDPC ENCL-P includes an additional mounting plate to accommodate the DMDPCO with up to two bridged IDC connector blocks*

Digital Phone Connect Porting Switches (DMDPC / DMDPCO / DMDPCO-10):

Features:

- ▶ The DMDPC / DMDPCO / DMDPCO-10 Porting Switch Solutions provide a one time switch-over from incumbent Telco to MTA-based service
- ▶ DMDPC is an indoor unit in a wall or baseboard mount form to provide a clean installation into subscriber premises and includes a third RJ11 jack to accommodate for local phone hook-up
- ▶ DMDPCO / DMDPCO-10 are outdoor hardened units featuring IDC connectors to allow technicians to easily make quick connections without the requirement for any tools
- ▶ DMDPCO-10 includes 10 additional IDC connectors for fast & easy connection of up to 10 "home run" circuits

* IDC Connector Blocks not included and are typically customer supplied.

Digital Phone Connect Intercom Switch (DMDPCI / DMDPCIW):

Features:

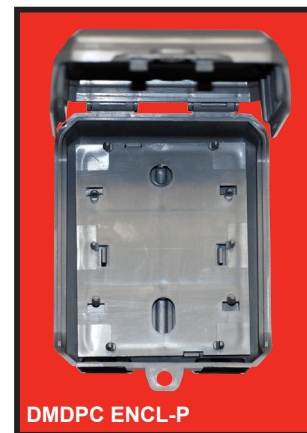

- ▶ The DMDPCI / DMDPCIW Intercom Switch Solutions provide a one time switch-over from incumbent Telco to MTA-based service, as well as conditions-based switch-back to Telco from MTA service in the event of Telco/Intercom ring or MTA disconnection or power loss
- ▶ Ideal for MDU environments with switched-based (or NSL) intercom solutions
- ▶ DMDPCI is an indoor unit in a wall or baseboard mount form to provide a simple installation into subscriber premises and includes a third RJ11 jack to accommodate for local phone hook-up
- ▶ DMDPCIW comes in a unique wall plate form factor allowing for a cleaner installation into the customer premise by fitting into any standard size electrical box – an optional wall plate spacer is included with every unit for depth limited installations

Outdoor Digital Phone Connect Enclosure (DMDPC ENCL / DMDPC ENCL-P):

Features:

- ▶ DMDPC ENCL outdoor enclosure comes with snap in tabs for both the DMDPCO & DMDPCO-10 and features two ports, secure hinged cover, & UV stabilized polymer
- ▶ DMDPC ENCL-P includes an additional mounting plate to accommodate the DMDPCO with up to two bridged IDC connector blocks*

* IDC Connector Blocks not included and are typically customer supplied.
