

UCrypt® QAM to IP Firmware:

Version:

- ▶ 1.2.6

Issued:

- ▶ May 2, 2011

System FW v1.2.6 includes:

- ▶ Tuner board FW v1.0.3.1, FPGA code v4917.

New Features:

- ▶ Show IP addresses of output ports when dynamically assigned by a DHCP server.
- ▶ Re-organize appearance of EAS settings page and remove 'compliant mode' option for force tune events.
- ▶ Add ability to specify external SMTP server and "From:" field in email alert settings.
- ▶ Add ability to set date, time and timezone on system page.
- ▶ Add functionality for scheduled and recurring automatic reboots.
- ▶ Add display of assigned output PID's to channel details page.
- ▶ Make Reboot/Shutdown buttons not available for 'user' access level.

Changelog (since previous GA FW v0.8.375):

- ▶ Update tuner board firmware to handle newer version of CableCARD copy protection spec.
- ▶ Fixes for PMT/PID following to be more reliable on SA/Cisco systems.
- ▶ Fix for error condition resulting in packets not being received from demod.
- ▶ Fix for bootup initialization bug on CableCARD adapter board.
- ▶ Fix for potential tuner board hang related to DDR communication timing.
- ▶ Add ability to restart CableCARD decryption in the event of a decryption failure event.
- ▶ Fix for detecting audio program resolution when split across tuner boards.
- ▶ Fix crash caused by manually adding a channel with frequency of "0".
- ▶ Fix crash caused by incoming MPEG streams with invalid adaptation field length.
- ▶ Parse resolutions of programs in GUI even if they are not assigned to an output.
- ▶ Fix for potential loss of CableCARD pairing during tuner board upgrade.
- ▶ Modify e-mail/SNMP alerts to be version specific.
- ▶ Fix for preserving custom https port settings during system upgrade.
- ▶ Hard limit the size of system logs to prevent filling up the hard drive.
- ▶ Fix for always logging alerts in GUI system log even if they are disabled for sending.
- ▶ Add plain text encoding of email alerts to improve spam filter score of emails.
- ▶ Add link to latest manual on ATX product support pages from Help link.
