

FOR RELEASE: Immediately

NEW REGIONAL SALES MANAGER FOR ATX NETWORKS
Bernardo Castro G. Appointed as Regional Sales Manager, CALA

Ajax, ON, Canada – June 1, 2009: ATX is pleased to announce the addition of Bernardo Castro G. as Regional Sales Manager, CALA. Bernardo's sales territory will include Latin America as well as the Caribbean Region.

Bernardo earned his Bachelors Degree in Law and International Commerce from Universidad Latinoamericana de Ciencia y Tecnología (ULACIT) in San José, Costa Rica. Bernardo has acquired an extensive knowledge of sales and market development both within the cable industry as well as other B2B industries. Bernardo is a highly skilled sales representative with extensive knowledge in the operations of cable systems. His understanding of cable network architectures will prove to be very valuable in his sales role at ATX. Bernardo is an outstanding addition to the ATX team and will play a valuable role in helping ATX Networks to better serve our CALA customers.

ATX Networks designs and manufactures cable products from the headend to the home. These include RF filters, signal management equipment (RF, L-Band, Optical), fiber transmitters and receivers, headend and MDU amplifiers, fiber nodes/upgrades and node segmentation solutions, amplifier upgrade modules, pads/EQs, drop amps, VoIP switches, audio/video deletion & insertion, monitor/control equipment, connectors, and test signal generators.
